

5 laboratories

Excellent higher education goes hand in hand with active research, which provides a constantly replenished source of teaching.

ENTPE includes 6 laboratories in which you can find:

- 80 researchers and post-doctoral students,
- around a hundred doctoral students of various nationalities.

They contribute to the scientific policy, the research conducted on sustainable planning themes and the teaching both of the engineering and doctoral students.

Laboratory for interdisciplinary research on cities, spaces and society (EVS RIVES)

**Transport, Urban Planning and Economics
Laboratory (LAET)**

**Tribology and System Dynamics Laboratory
