

The next generation of sustainable, resilient and smart roads - 8 novembre 2023

OBJECTIFS  **DE DÉVELOPPEMENT
DURABLE**

9

INDUSTRIE, INNOVATION ET INFRASTRUCTURE

Le Talk du mercredi : un regard différent sur le monde.

Ce TAM vous est proposé en langue anglaise.

Prof. M.Carmen Rubio-Gámez - University of Granada

The development of high-quality road infrastructure has shaped modern society, making it more accessible and

connected. In the last decade, all efforts that are currently being undertaken by the various stakeholders involved are working to achieve smart and resilient pavements, thus creating more sustainable and economically vibrant communities.

TAM / LE TALK
DU MERCREDI

The next generation of sustainable,
resilient and smart roads

→ Prof. M.Carmen Rubio-Gámez
University of Granada

“ The development of high-quality road infrastructure has shaped modern society, making it more accessible and connected. In the last decade, all efforts that are currently being undertaken by the various stakeholders involved are working to achieve smart and resilient pavements, thus creating more sustainable and economically vibrant communities. ”
